

**Living in the 21st Century World: Perspective on Climate Change, Pandemic, and Digital Transformation**

**Chapter 13 - Information Governance: A Catalyst for Digital Transformation - Henrietta Okoro**

This chapter deals with global digital transformation challenges for companies, which require more coordination through information governance when making decisions to accelerate the transformation process. Companies' information governance mechanisms around their digital initiatives have impacts on people, processes, compliance, and technology. However, despite the digital transformation challenges, companies and stakeholders need to be abreast of the change as an opportunity to scale up the integration of information and communication technology (ICT) in business environments. The chapter concludes with best practices of Information Governance and ways to sustain digital transformation into the 21<sup>st</sup> century. Page 181 - 96
