

Living in the 21st Century World: Perspective on Climate Change, Pandemic, and Digital Transformation

Chapter 5 - The Last Decade of the 20th Century - Veronica Woodard & Twila Sterling-Guillory

This chapter takes a retroactive view on the gain of the 20th Century, its place in the new generation born in the last decade of the Century. It will highlight the importance of the last decade as the basis for projections into the new Century and the promise of a better tomorrow. It offers an analysis of several different subject areas in the last ten years of the 20th century. Some of the areas will include human effects of climate change, pandemic illnesses such as, Auto Immune Deficiency Syndrome (AIDS), and Ebola, as well as greenhouse gases. Additionally, the digital transformation of health care will be addressed in relation to the last decade of the 20th century. Page 65-74
