

Living in the 21st Century World: Perspective on Climate Change, Pandemic, and Digital Transformation

Chapter 2 - The Rise of Global Citizen- Ghosh Thinnakkakath

The rise of global citizen is increasing as they think beyond borders and their cultures. Global citizens and their importance have been growing along with the exponential growth in Information Technology (IT). Now everyone can communicate with anyone through all media around the globe within seconds if an internet connection exists. Digital technology and cloud computing changed how we did things in the past. Knowing different cultures and feeling the warmth of interacting with citizens worldwide quickly is a fantastic experience. It is still sad that millions worldwide are still missing the necessities of life. The dynamics of nationalism are changing, and the equality and diversity among citizens are growing due to the rise of global citizens. Feeling proud as a global citizen will resolve many barriers among people worldwide. The value of a global citizen is tremendous, and everyone can work together to prevent wars, restore peace, and resolve poverty. The entire world can move forward as one earth, one citizen, and a motto to live peacefully without poverty. Page 22-31
